

Merging Overlapping Times Puzzle

<https://advancedsqlpuzzles.com>

Note: The solution to this puzzle is handy for auditing Type 2 SCDs to verify there are no overlapping time periods. [Here is the Wikipedia article on Slowly Changing Dimensions.](#)

Write an SQL statement to merge the overlapping time periods.

Start Date	End Date
1/1/2018	1/5/2018
1/3/2018	1/9/2018
1/10/2018	1/11/2018
1/12/2018	1/16/2018
1/15/2018	1/19/2018

Here is the expected output.

Start Date	End Date
1/1/2018	1/9/2018
1/10/2018	1/11/2018
1/12/2018	1/19/2018
